VISION & MISSION

Vision:

To be a Centre for Excellence in value based quality Professional Education carrying Research, Innovation and Entrepreneurial Attitude that strengthens students into globally competent society centered engineers.

Mission:

- *To create a student centric institute support with innovative pedagogy*
- *To integrate the utilization of the state-of-the-art infrastructure for the overall development of the individuals.*
- *To encourage independent thinking and application-oriented collaborative research in areas of regional interest to contribute to the development of the region and the nation.*
- *To provide an effective teaching-learning environment for learning technical graduates with value, entrepreneurial attitude and globally employable skills.*
- *To encourage participation in Sports, Co-curricular and Extra-curricular activities leading to overall personality development.*

A Three Day Online Workshop on

Python & Its Applications

Organized by

Department of Computer Science and Engineering

22.04.2021 – 24.04.2021

About College:

Sri Kavitha Educational Society is registered under Public Societies Registration Act, 1350F with registration no.1119 of 1991.The primary vision of the society is to provide good and sound general and technical education to the students so that they will turn out to be useful and sensible citizens of our country. In realization of this vision, the society established Kavitha Memorial Degree PG College in 1991.It has a unique distinction of modern age educational institution offering modern, restructured and vocational degree and PG programmes. The main objective is to provide educational services to the society on the basis of the strength and dynamic support that we receive from the general public.In realization of this objective, the society has established "Khammam Institute of Technology and Sciences" at Poonekal (V) which is 9 km away from Khammam town situated on Khammam-Hyderabad state highway. The college (KITS) provides all modern facilities in a built up area of over 50,000 sft.which is approved by AICTE, New Delhi and affiliated to Jawaharlal Nehru Technological University, Hyderabad.

Vision:

To be a Centre for Excellence in value based quality Professional Education carving Research, Innovation and Entrepreneurial Attitude that transforms students into globally competent society sensitized engineers.

Mission:

- To create a student centric institute support with innovative pedagogy
- To maximize the utilization of the state-of-the-art infrastructure for the overall development of the individuals
- To encourage independent thinking and application oriented collaborative research in areas of highest interest to contribute to the development of the region and the nation.
- To provide an effective teaching & learning environment for training technical graduates with values, entrepreneurial attitude and globally employable skills.
- To encourage participation in Sports, Co-curricular and Extra-curricular activities enabling to holistic growth of the students.

About CSE:

The Department of Computer Science and Engineering was founded with the primary objective of providing quality education in the field of Computer Science and Engineering, while addressing the problems of today and tomorrow. Right from its inception, the department has been offering excellent infrastructural facilities to aspire students to meet the growing demands of the industry. The aim of the department is to provide students both theoretical knowledge and practical skills in the field of latest technology to make it easier for employment in various sectors. The department of Computer Science & Engineering is well equipped with centralized laboratories having the latest configurations. The department is very actively pursuing research in diverse fields of the Computer Science world, namely Data Security, Mobile Applications, Wireless Networking, Machine Intelligence, Image Processing and Data mining. Our students have participated in different Inter-Intra institutional events and bagged different prizes.

Department Vision:

To become a centre of excellence in the field of Computer Science and Engineering that produces innovative, skilful, socially responsible and ethically strong professionals.

Department Mission:

- To create, share, and apply knowledge in Computer Science, including interdisciplinary areas that extend the scope of Computer Science and benefit humanity by providing state-of-the-art training, hands on experience and healthy research environment.
- To educate students to be successful, ethical, and effective problem-solvers and life-long learners who will contribute positively to the economic well-being of our nation and who are prepared to tackle complex challenges of the world.

About Workshop:

The Workshop on "PYTHON AND ITS APPLICATIONS" includes expert lectures on theory, applications, and design methods of Intelligent Systems and Intelligent Computing. Virtually all disciplines such as engineering, natural sciences, computer and information science, ICT, commerce, business, e-commerce, environment, healthcare, life science are covered. AI uses the theoretical and experimental tools of computer science to study the phenomena of intelligent behaviour. Intelligent systems refer to different software tools that enable decision makers to draw on the knowledge and decision processes of experts in making decisions. This Workshop covers significant recent developments in these fields, both of a foundational and applicable character.

A Three Day Online Workshop on

Python & its Applications

organized by

Department of Computer Science and Engineering

22.04.2021 – 24.04.2021

OBJECTIVE

Objectives Our objective is to help students to gain an overall knowledge of the applied technology and its functioning. To introduce python language to students for designing software games and web applications. The course is designed to provide basic knowledge of Python. Python programming is intended for software engineers, system analysts, program managers and user support personnel who wish to learn the Python programming language. For present and future reference we provide ample production materials covering the origins and application areas of the technology. We provide practical design, development and related services with end-to-end solutions in network.

Scheduled for

A Three Day Online workshop on

Python & Its Applications

DAY-1:

LANGUAGE FUNDAMENTALS

DAY-2:

DATA TYPES

1) int Data Type
   - Decimal Form
   - Binary Form
   - Octal Form
   - Hexa Decimal Form
2) Float Data Type
3) Complex Data Type
4) bool Data Type
5) str Data Type
6) bytes Data Type
7) bytearray Data Type
8) List Data Type
9) Tuple Data Type
10) Range Data Type
11) Set Data Type
12) frozenset Data Type
13) dict Data Type
14) None Data Type
   - Type conversions
   - Slicing of Strings
   - Text Editors
      - int()
      - float()
      - complex()
      - bool()
      - str()
   - Fundamental Data Types Vs Immutability
   - Escape Characters
   - Constants

Python & Its Applications

organized by

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

(22.04.2021 – 24.04.2021)

Date: 22.04.2021

Inaugural Function of

A Three Day Online Workshop on

Python & Its Applications

1. Welcome and introduction by Mr. [illegible], IV CSE Student.
2. Dr. **Pamula Krishna Murthy Garu**, Principal, KITS.
3. **Shri Kota Appa Reddy Garu**, Secretary &Correspondent, KITS.
4. **Dr. V Suresh Babu** , Vice-Principal & HOD, MBA
5. **Dr. V Sudhakar Garu**, HOD, CSE

It Includes by:

1. Message by Dr. Pamula Krishna Murthy Garu, Principal, KITS.
2. Message by Shri Kota Appa Reddy Garu, Secretary & Correspondent, KITS.
3. Message by Prof Dr.V.Sekhar, Vice-Principal& HOD, MBA, KITS.
4. Message by the Dr. V. Sudhakar, HOD, CSE
5. Vote of thanks by Mr.Raja, IV CSE Student.

KHAMMAM INSTITUTE OF TECHNOLOGY & SCIENCES

A Three Day Online Workshop on

Python & Its Applications
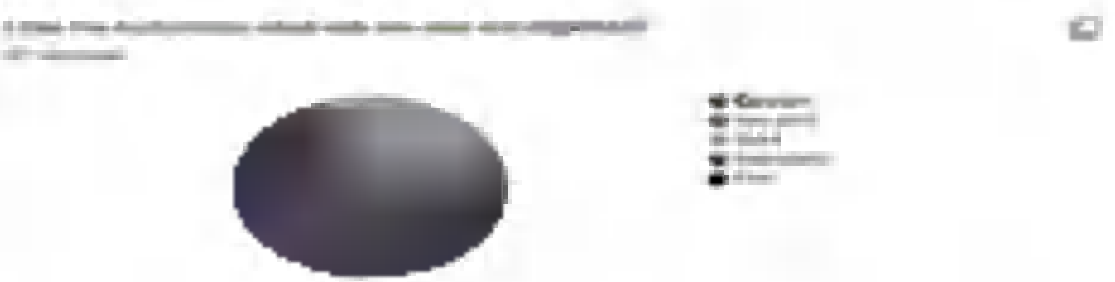
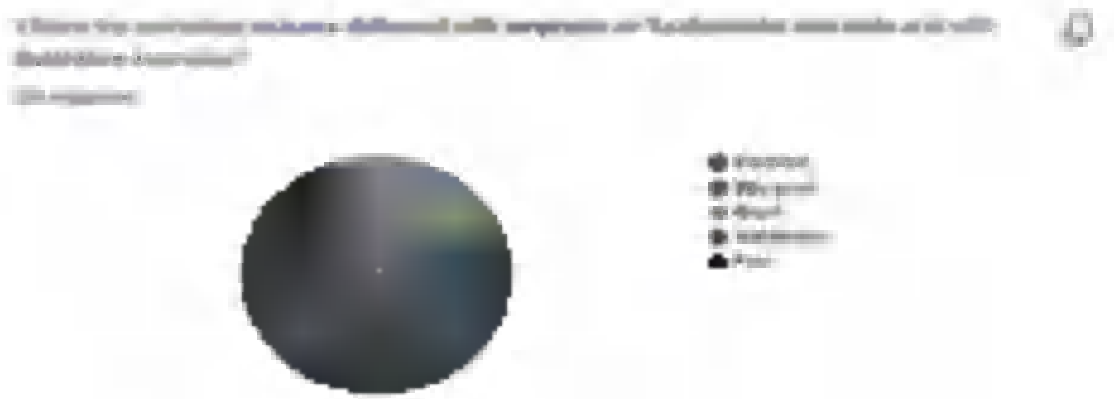
Workshop FEEDBACK

Feedback from Students through Google Form: Students experienced a special hands on practice learning session through which they get a better understanding of Python fundamental. Students understand the importance of python, design and applications development. The content delivery was as per the needs of every student along with the Google Classroom. Overall the workshop has been overall productive.





8.Any additional comments regarding the sessions or overall agenda?

[illegible] responses

I m very much satisfied with this workshop.

Very good

Nothing

well explained

It's provide until the end of the course

9.Any additional comments regarding the sessions or overall agenda?

[illegible] responses

It was excellent and helped a lot to increase knowledge

No comments all its good

The overall session is good and useful

It's effective and worthy

An very good and learnt a lot from these sessions I have got an idea about python it's very worthy

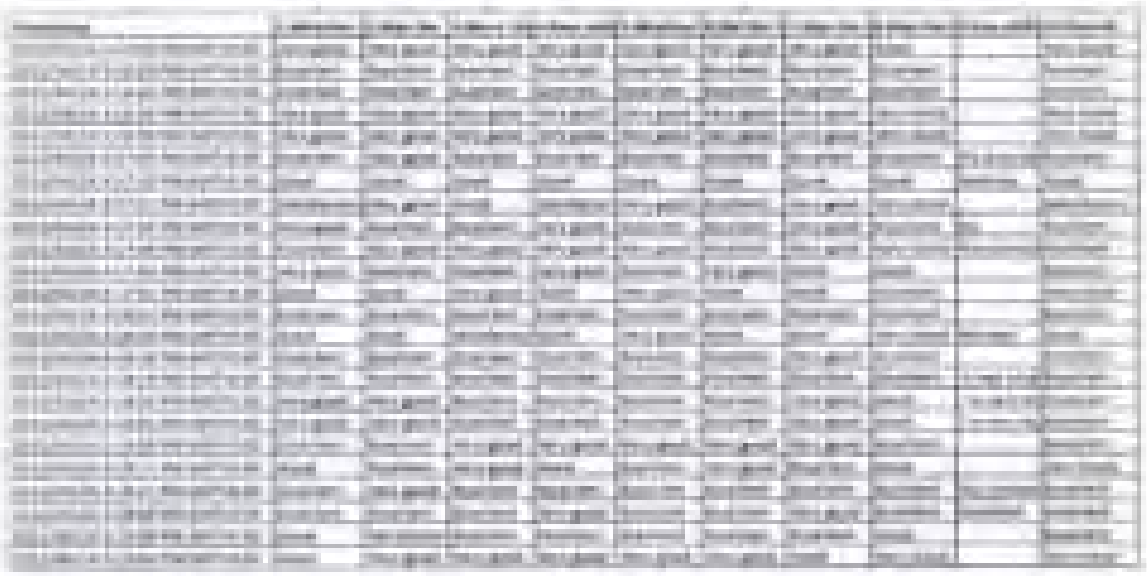
It is good lecture and making understandable to each and everyone I have satisfied with the class of python

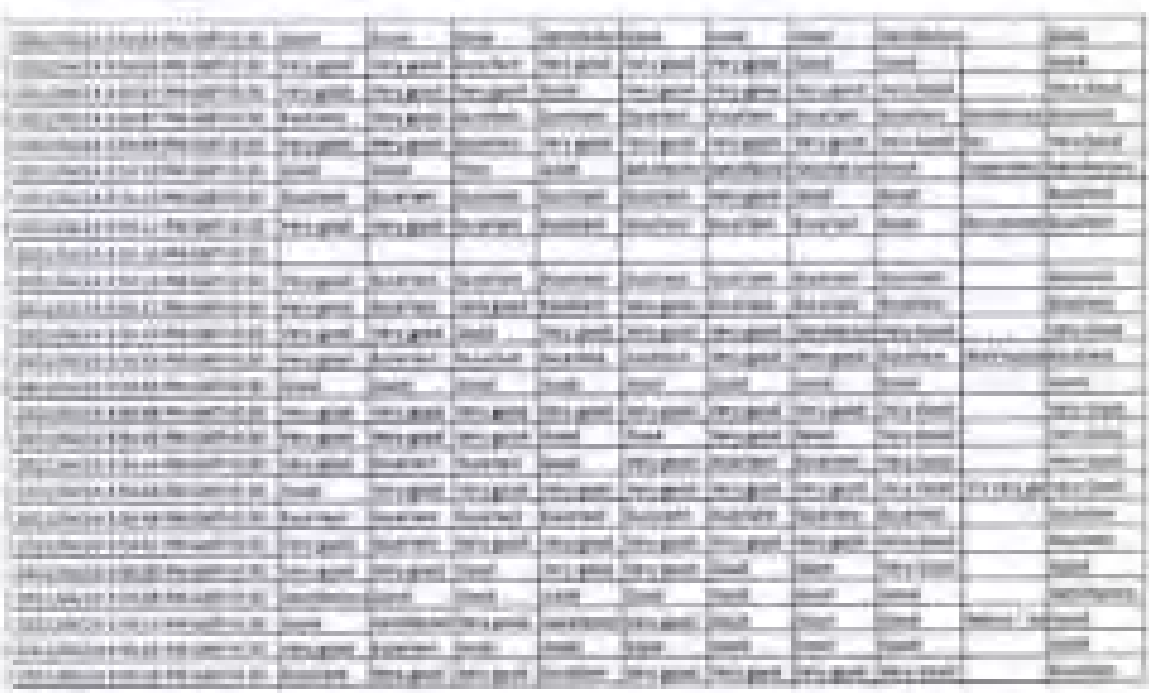
Overall view was good. Definitely helpful. I have learnt something from this workshop

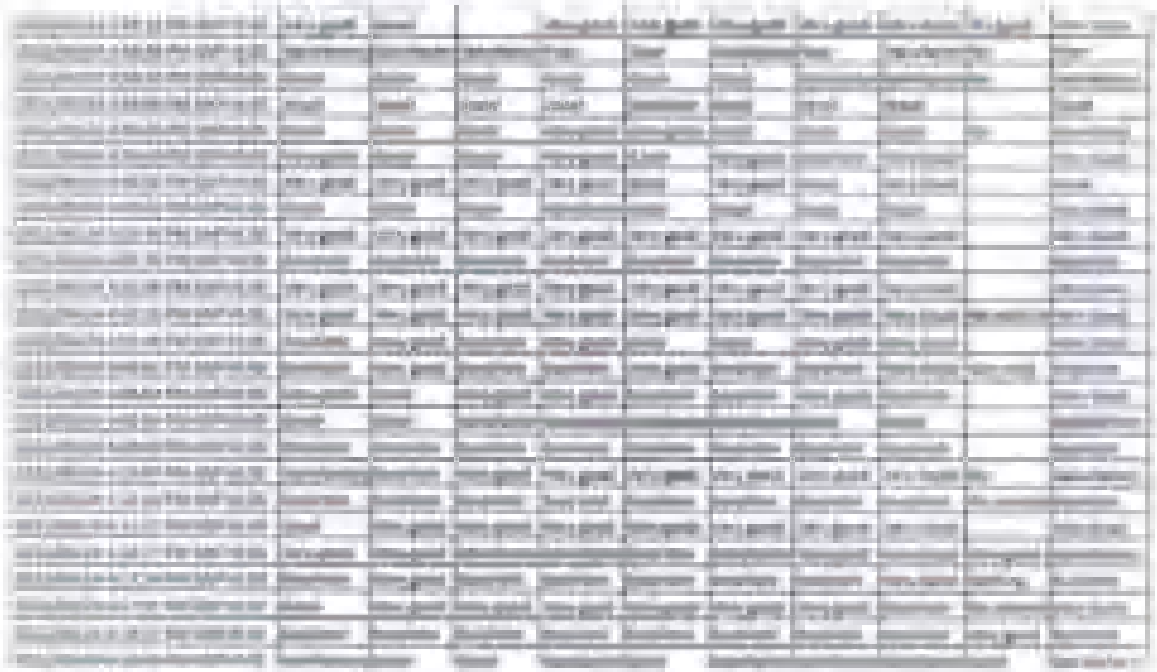
All good

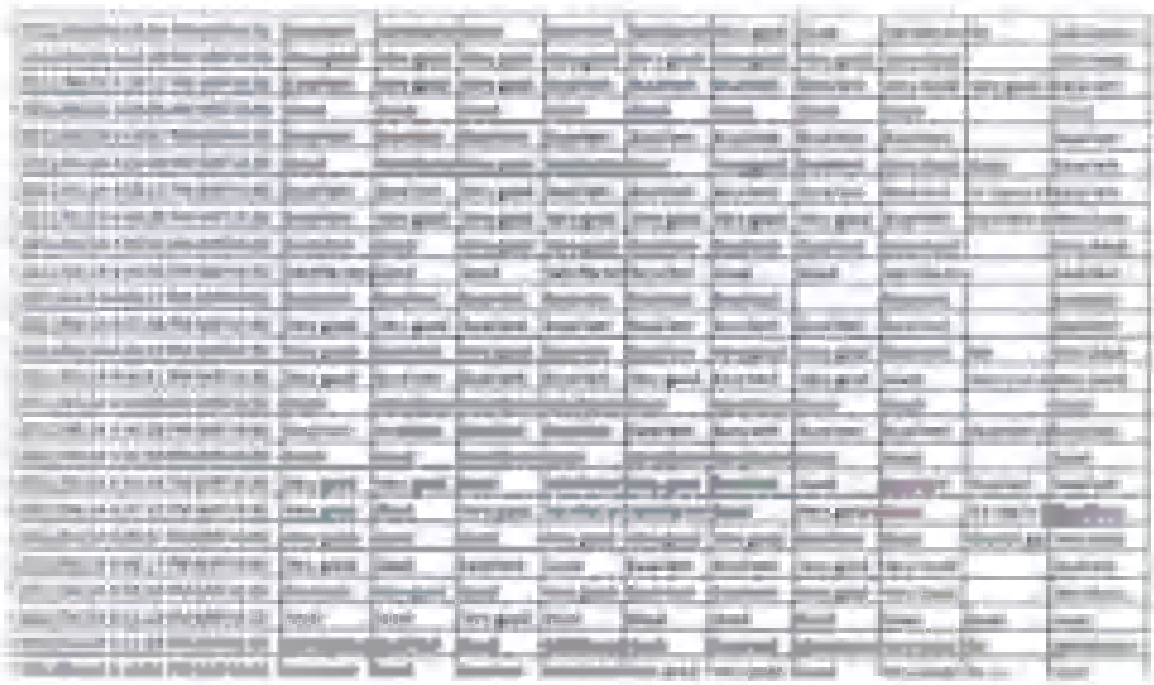
10.Overall feedback for the event?

[illegible] responses









Paper Cuttings

'కిట్స్'లో విద్యతో పాటు ఉద్యోగాల కల్పన

ఖమ్మంరూరల్: మండలంలోని కిట్స్ కాలేజీ సివిల్ కళాశాలలో విద్యార్థులకు చదువుతో పాటు ఇంకా ఎలాంటి కోర్సు పూర్తయితే ఉద్యోగం వస్తుందో ఉద్యోగ ఎంపిక ఎలా ఉంటాయి కల్పిస్తున్నట్లు కళాశాల ఛైర్మన్ కోటా అప్పారావు తెలిపారు. ఖమ్మంరూరల్ కళాశాలలో సివిల్ విభాగంలో నిర్వహించిన వర్క్‌షాప్ కార్యక్రమంలో ఆయన పాల్గొని మాట్లాడారు. విద్యార్థులు కూడా డిగ్రీ పట్టాపొంది పాసైన తర్వాత ఖాళీగా ఉండకుండా తమకు వచ్చిన అవకాశాలను ఆలస్యం చేయకుండా ఎంపిక చేసుకోవాలన్నారు. కార్యక్రమంలో ప్రిన్సిపాల్ శ్రీనివాసమూర్తి, హెచ్ ఓడీలు వి.సుధాకర్, ప్రతీక్, ప్రసాద్, నాగేంద్ర, ఎం. ఎస్. అప్పారావు, ఇతర అధ్యాపకులు తదితరులు పాల్గొన్నారు.

News Paper article about Python Workshop

CONCLUSION

Conclusion: The workshop will be conducted by Devgenit Solutions Pvt. Ltd., Hyderabad in coordination with both the Department of Computer Science and Engineering of Khammam Institute of Technology & Sciences(KITS), Khammam has organized a 3-Day workshop on **"Python & its Applications"** on 12th April to 14th April 2021 with the aim to provide software practice to the students on the aspects of development for any project of python programming based. This workshop was also useful in the reference of placement of students. Higher packages are paid for designers as well. The total numbers of seats are limited to 220(80 for IV CSE, III CSE for 80 and II CSE for 32) so registration will be done on the basis of First Come First Go basis. There is Rs. 50/- fee for the workshop per student. The inaugural address was delivered by Sri K.Appi Reddy(Secretary & Correspondent), Dr. Ramesh Krishna Murthy (Principal), Dr.V.Devender (Vice-Principal) & Dr.V. (HoD, CSE). At the end of the workshop online Certificate distributed by Department HOD and Devgenit Solutions Pvt. Ltd., Hyderabad., Company to individual mailed and vote of thanks proposed by Mr.K.Deepthe (IV CSE Student).

VISION & MISSION

Vision:

To be a Centre for Excellence in value based quality Professional Education centered Research, Innovation and Entrepreneurial Attitude that transforms students into globally competent society sensitized engineers.

Mission:

- *To create a student centric multimode support with innovative pedagogy*
- *To empower the institution of the state-of-the-art infrastructure for the overall development of the individuals*
- *To encourage independent thinking and application-oriented collaborative research in areas of regional interest to contribute to the development of the region and the nation*
- *To provide an effective teaching & learning environment for training technical graduates with value, entrepreneurial attitude and globally employable skills.*
- *To encourage participation in Sports, Co-curricular and Extra-curricular activities enabling to over-all personality development.*

SOFT SKILLS TRAINING PROGRAM

P.E.O., P.O. AND P.S.O

PROGRAMME EDUCATIONAL OBJECTIVES (PEO's):

PEO – 1: Preparation:

1. To prepare students to fit into any industry and higher education associated with developing and implementation of software products or technologies.

2. To enable the students to carryout independent research or pursue higher education in core and allied areas of computer Science & Engineering.

PEO – 2: Design Skills:

1. To endow the students with a conceptual knowledge of basic and applied aspects of Computer Science and Engineering.

2. To train the students on latest technological architectures software/tools which are widely used in the industry.

PEO – 3: Professionalism:

To inculcate the students to realize and learn the ethical values, social responsibility and teamwork skills.

- To develop core competencies required for the industry such as communication skills and collaboration, leadership, creative thinking and problem-solving skills, personal management, the ability to work in teams or groups and leadership effectiveness.
- To develop as educated, well learned, individual with positive attitude and enhanced Knowledge and Skills so that they become acceptable to the industry.
- To build confidence and develop the spirit of taking initiative, thereby helping them generate creative ideas and productive outcomes.

PSO – 4: Communication Skills & Lifelong Learning

To be able to communicate (written & oral) clearly and effectively with fellow engineers, employers and with customers, in general their professional advancement through life-long learning opportunities, in-service training and engagement with professional organizations.

PROGRAMME OUTCOMES (PO's)

1. To Overcome stage fear.
2. To Build Confidence.
3. To develop the spirit of taking initiative.
4. Inculcate social skills, manners and etiquette.
5. To develop general awareness of the facts, forming an opinion, articulating and presenting it in a manner that is appealing to the listener.
6. To develop the spirit to strive towards excellence in all spheres of individual and collective activity so as to rise to higher levels of endeavor and achievement.

PROGRAMME SPECIFIC OBJECTIVES (PSO's)

PSO1: Students understand the necessity to strive for better.

PSO2: After training sessions they found the institutes easily accessible.

PSO3 Displayed improved Etiquette and mannerisms during college hours.

PSO4: Students developed a well-formed approach.

IMPORTANCE OF SOFT SKILLS:

Soft skills are the difference between adequate candidates and ideal candidates. In most competitive job markets, recruitment criteria are not limited to technical ability and specialist knowledge.

Every job role requires some interaction with others, whether they are colleagues or customers, so soft skills will be important to most employers.

Better at your career, recruiters will be looking for people who have the potential to become leaders. They won't expect you to have all the qualifications and experience from day one, but they will want to know that you have the qualities that will allow you to learn and grow in the role.

Here are some examples of the difference made by soft skills:

- A doctor is required to have an extensive repertoire of hard skills, especially the ability to diagnose and prescribe treatments for an array of ailments. But a doctor who does not have the soft skills of emotional intelligence, trustworthiness and approachability is not likely to be very highly regarded by their patients.
- A salesperson, who may have an unrivalled and exhaustive knowledge of their market, will find it difficult to close a deal and retain their clients if they lack the soft skills of interpersonal skills and negotiation.
- A customer services professional with amazing organizational skills will only do well if they are also able to interact professionally with customers, and have empathy and listening skills.

Soft skills are not just important when facing external customers and clients. They are equally important when it comes to **interacting with colleagues.**

Employers value soft skills because they enable people to function and thrive in teams and organizations as a whole.

A productive and healthy work environment depends on soft skills. After all, the workplace is an interpersonal space where relationships must be built and fostered, perspectives must be considered and, sometimes, conflicts must be resolved.

What Are the 10 Key Soft Skills?

This section is an extensive, but not exhaustive, guide to some of the key soft skills sought by employers.

1. COMMUNICATION:

Communication is one of the most important soft skills. Able communicators can adjust their tone and style depending on their audience, comprehend and use effectively nonverbal cues, and explain complex issues to colleagues and clients alike.

A key, often forgotten, communication skill is **listening.** Whether you are dealing with a customer complaint or working with your colleagues, good listening skills will help you fully and empathetically understand the circumstances you have been presented with.

Equally as important are your **verbal and non-verbal skills.** Verbal skills are key to fostering relationships that are collaborative and respectful, and, ultimately, productive. This also applies to your written communication.

A lot of business communication is now played out by email, so it's important to know good **email etiquette** and give instructions clearly and concisely.

2. SELF-MOTIVATION:

Having a positive attitude and the initiative to work well without around-the-clock supervision is a vital soft skill for any employee.

Not only does it demonstrate reliability and commitment, but it also shows that you can fit effectively into an organizational structure without the need for constant supervision.

To demonstrate your motivation, think about these key skills:

- Positivity
- Ambition
- Commitment
- Initiative

3. LEADERSHIP:

Leadership is a soft skill you can show even if you're not directly managing others. Those with strong leadership skills will have the ability to inspire others and lead teams to success. This is why it is a particularly sought-after skill.

People with good leadership skills will have a range of skills that are useful in the workplace, including:

- A positive attitude and outlook
- The ability to make quick and effective decisions
- Exemplary problem-solving or conflict management skills
- The ability to communicate effectively
- An aptitude for both self-motivating and motivating others

Even if you are applying for an entry-level role, don't be afraid to demonstrate your potential by showing how you have positively influenced others to take a project to success.

4. RESPONSIBILITY:

Responsibility is a seldom talked-about but highly valued soft skill. Colleagues who fail to take responsibility for their work will be less productive and less successful overall.

To demonstrate a high level of responsibility, make sure you can master these skills:

- Trustworthiness
- Discipline
- Motivation
- Conscientiousness
- Accountability

Taking responsibility means taking ownership of not only your goals but the wider company goals. This will mean taking the initiative to make improvements, accepting responsibility for any failures and really owning about working your way to success.

5. TEAMWORK:

Like leadership, good **teamwork** involves a combination of other soft skills.

6. PROBLEM SOLVING:

Problem solving does not just require analytical, creative and critical skills, but a particular mindset: those who can approach a problem with a cool and level head will often reach a solution more efficiently than those who cannot.

This is a soft skill which can often rely on strong teamwork, too. Problems need not always be solved alone.

The ability to know who can help you reach a solution, and how they can do it, can be of great advantage.

7. DECISIVENESS:

Decisiveness is characterized by the ability to make quick and effective decisions. It does not entail recklessness or impulsiveness.

Decisiveness combines several different abilities:

- The ability to put things into perspective
- Weigh up the options
- Assess all relevant information
- Anticipate any consequences, good and bad

A decisive employee will take effective and considered action quickly, especially when under pressure.

They take responsibility for the consequences of their decisions and can adapt when mistakes are made. This ensures that opportunities aren't missed by lengthy analysis or debate.

8. ABILITY TO WORK UNDER PRESSURE AND TIME MANAGEMENT:

Many jobs come with demanding deadlines and, sometimes, high stakes. Recruiters prize candidates who show a decisive attitude, an unbeatable ability to think clearly, and a capacity to remain unshakable and act when needed.

Time management is closely related to the ability to work under pressure, as well as within tight deadlines. Employees who manage their time well can efficiently prioritize tasks and organize their diaries while adopting an attitude which allows them to take on new tasks and deadlines.

9. FLEXIBILITY:

Flexibility is an important soft skill, since it demonstrates an ability and willingness to embrace new tasks and new challenges calmly and without fuss.

Flexible employees are willing to help out where needed, take on extra responsibilities and can adapt quickly when plans change.

Employers are looking for candidates who can show a willing and upbeat attitude, and who are resilient to change.

10. NEGOTIATION AND CONFLICT RESOLUTION:

This is another of those soft skills which employers look for in potential **employees**.

To be an adept negotiator is to know how to be persuasive and exert influence, while constantly seeking a solution which will benefit all parties.

Similarly, **conflict resolution** depends on strong interpersonal skills and the ability to establish a rapport with colleagues and clients alike.

Estd: 2008

Sy. No. 83, Gandhi Educational Society's

KHAMMAM INSTITUTE OF TECHNOLOGY & SCIENCES

Affiliated to JNTUH & Approved by AICTE, New Delhi

Pasunkal (Village), Khammam (Rural), Khammam (Dist) -507 113

Phone: (0874) - 2366666, 9666677777

SYLLABUS FOR
SOFT SKILLS TRAINING PROGRAM

WEEK-I (THEORY SESSIONS)			
S.No	**Date**	**Topic Covered**	**Duration (Hrs)**
1	04-01-2021	• Interpersonal skills • Goal Setting and Time Management • Communications – verbal	3
2	05-01-2021	• Communication and Presentation skills	3
3	06-01-2021	• Personal grooming and professional Etiquettes • Team work – collaboration • Creative Problem Solving Training	3
4	07-01-2021	• Team Building • Overall personality development	3
5	08-01-2021	• Understanding the communication constituents-I	3
6	09-01-2021	• Understanding the communication environment-II	3

SUMMARY

SOFT SKILLS TRAINING PROGRAM:

During the formal inaugural session, **Dr. P.Krishna Murthy, Principal** and Coordinator, Dept of Training and Placement cell welcomed the gathering and also introduced resource persons to the audience. While addressing students, Dr. **P.Krishna Murthy, Principal, KITS,Khammam** focused on the efforts of Management and college administration for providing state-of-the art facilities to the students of KITS. Adding to it, Principal stressed the importance of such training programs and also assured that many more quality programs will be introduced in the days to come for preparing students to face campus interviews. Also he solicited that the placement team of the college will have student representatives too so that the future training programs can be organized as per the need of the students.

First session of training began with identifying the differences between CV, resume and bio data. In the training program, the students were taught about some good etiquette to be followed while attending interviews. Tips and guidelines for attending HR interview were also dealt in detail. A mock HR round interview was also taken. Few frequently asked questions and the effective answers for those questions were discussed.

In the second session, trainers gave tips to write attractive CV also advised what the things to be written in CV. Trainers also focused on what is group discussion, how to take part in group discussion, Dos and Don'ts in group discussion. After giving these tips students were made to take part in group discussions under the guidance of trainers.

The Program scheduled covered Soft skills. Soft skills are a cluster of personality traits that characterize one's relationships in a milieu. These skills may include social graces, communication abilities, language skills, personal habits, cognitive or emotional empathy, time management, and teamwork and leadership traits.

At the end of the day program concluded with feedback from students and vote of thanks by Coordinator.

STUDENT FEEDBACK ON SOFT SKILLS TRAINING PROGRAM

DEPARTMENT/ PROGRAM	BTECH	YEAR / SEMESTER	IV B.TECH I SEM

Please rate the course of the following attributes using 5 point scale shown:

5	4	3	2	1
Excellent	Very good	Good	Satisfactory	Poor

	Theory subject codes as per Syllabus → SOFT SKILLS TRAINING PROGRAM
Attributes for feedback	
Whether the lectures were well prepared. Organized and course material is well structured?	5
Was the Blackboard writing / audio visual aids are clear and organized?	5
Were the lectures delivered with emphasis on fundamental concepts and with illustrative examples?	5
Whether the Teacher engages classes regularly & maintains the discipline	4
Whether difficult topics were taught with adequate attention and ease?	4
Did the faculty provide you new knowledge and has command over the subject?	4
Was the instructor enthusiastic about teaching?	4
Was the teacher able to deliver lectures with good communication skills?	5
Were you encouraged to ask Questions, to make lectures interactive and lively?	5
Did the course improve your understanding of concepts, principles in this field and motivated you to think and learn?	4
Whether the teacher was effective in assessing students by exams?	4
Were the unit / assignment tests challenging?	4
Was the evaluation fair and impartial? and did it help you to improve?	4
Did teacher give additional technical / non-technical inputs by referring to internet/ additional books?	5
Whether teacher was always accessible to the students for counseling, guidance and solving queries off the classroom hours	5
Total points received	67
% satisfaction level = (Total points/ 75)*100	89.33%

VISION & MISSION

Vision:

To be a Centre for Excellence in value based quality Professional Education carving Research, Innovation and Entrepreneurial Attitude that transforms students into globally competent society sensitized engineers.

Mission:

- *To create a student centric institute support with innovative pedagogy.*
- *To maximize the utilization of the state-of-the-art infrastructure for the overall development of the individuals.*
- *To encourage independent thinking and application-oriented collaborative research in areas of topical interest to contribute to the development of the region and the nation.*
- *To provide an effective teaching & learning environment for training technical graduates with value, entrepreneurial attitude and globally employable skills.*
- *To encourage participation in Sports, Co-curricular and Extra-curricular activities resulting in over-all personality development.*

P.E.O., P.O. AND P.S.O

PROGRAMME EDUCATIONAL OBJECTIVES (PEO's):

PEO – 1: Preparation:

1. To prepare students to fit into any industry and higher education oriented with To improve students' fluency in spoken English.
2. To enable them to listen to English spoken at normal conversational speed

PEO – 2: Design Skills:

1. To help students develop their vocabulary.
2. To read and comprehend texts in different contexts.

PEO – 3: Professionalism:

1. To communicate their ideas coherently and coherently in writing.
2. To make students industry ready.

PEO – 4: Communication Skills & Lifelong Learning

1. To help students acquire behavioral skills for their personal and professional life
2. To respond appropriately in different socio-cultural and professional contexts.

PROGRAMME OUTCOMES (PO's):

Students will be able to:

- Acquire vocabulary and use it contextually
- Listen and speak effectively
- Develop proficiency in academic reading and writing
- Increase possibilities of job prospects
- Communicate confidently in formal and informal contexts

PROGRAMME SPECIFIC OBJECTIVES (PSO's):

PSO1: Equip the students with good communication skills.

PSO2: Enable the students to understand English phonetics and use them in everyday life.

PSO3: Empower them to participate in debates, group discussions and presentations.

PSO4: Understand how interviews are conducted.

Our Promise to You...

We **[illegible]** that our **[illegible]** will progress in their language proficiency by using **Language Lab** and we promise you professional training by our experts until you make it which is 100% guaranteed! Digital language Lab is the state-of-the-art language learning solution that increases opportunities for students to personalize learning and enhance their communication. The response of our Alcatel learners and instructors worldwide give us the confidence to give this best ever offer to provide maximum ROI to our clients and a great thanks to them.

Why Language Lab?

- World's best in class Software with most Effective Methodology of Teaching and Learning Languages.
- Advanced Unique user friendly Features Designed to Enhance Teaching and Learning Efficiency.
- Online/Offline versions with Perpetual/Lifetime Software License or Usage Options.
- Teach Language using the Software provide greater Value for Education.
- Total Control and Monitoring on the learners provide Total Peace of Mind for the Instructors.
- Customized and detailed reports on students and the teachers reveal better monitoring to the Parents and the Management.

ABOUT LANGUAGE LAB

A fully functional language lab caters to all the under graduates, post graduates and all students of the College. Language lab holds regular training-AVSECTLL (Audio- Visual Self Assessment Techniques Language Learning) where spoken skills are taught. Spoken English, UGC approved 1) Communicative English 2) GRE skills, CDP Courses are held. Mock Interviews are held. Training for higher education is important in the form of coaching for GRE, TOEFL and IELTS to students outside campus also.

The Department has a modern Language Laboratory with state-of-the-art audio-visual equipment to aid in improving language skills. The Laboratory is effectively utilized by students and faculty members for various self-assessment and soft skill development activities. Laboratory proves beneficial for those students who are poor in use of English language. Students from rural areas who are generally weak in English will have sufficient ear training in the language lab. It aims at confidence-building among students for interactions and presentations in English. The basic purpose of the lab is to provide students a platform to enhance English language skills, communication skills and to practice soft skills.

Language Lab shall have two parts.

A. Computer Assisted Language Learning (CALL) Lab

B. Interactive Communication Skills (ICS) Lab

A.COMPUTER ASSISTED LANGUAGE LABORATORY (CALL):

The Computer Assisted Language Laboratory (CALL) uses computer to teach language. The course materials are already fed into the computer and are displayed according to the features available in the system. Nowadays, there are also laboratories with computers with a connection to the Internet.

B. INTERACTIVE COMMUNICATION SKILLS (ICS) :

The ICS LAB is a spacious room with movable chairs and audio-visual aids with a [illegible] System, a T. V., a digital stereo audio system, LCD projector and computer etc. This lab provides opportunity equally to 30-40 students to interact and make presentations at once, thereby helping them improve their language proficiency, communicative competence and presentation skills. This laboratory hands with student activities under the effective supervision and guidance of the trainer as it is purely activity/task based.

FUNCTIONALITY:

The levels of functionality of current language labs vary from manufacturer to manufacturer. All labs will have a level of teacher control to prototype student learners / desktops. The more sophisticated 'software only' labs have a higher level of teacher management and control over the students desktop. One of the key differences with the 'high end' 'software only' platforms is their ability to work the

with the students as they record and work with audio. So instead of walking to record individual recordings after they have been recorded and collected back it is now possible for a teacher to work synchronously and live with students on their own, in pairs and in groups, thus enhancing the immediacy of the teaching and learning experience. The next generation digital language labs allow teachers to monitor, control, deliver, group, display, review and collect audio, video and web based multimedia content. The student player is locked in the teacher console and can play audio, video and web based lessons. Students can rewind, stop, store, go back to last station, record, fast forward, register phrases and bookmark.

BENEFITS AND ADVANTAGES OF LANGUAGE LAB:

a) Amenities The language lab provides all students, no matter where they are seated in the room, equal opportunity to hear the instructor and to be heard by the instructor. Each student can listen to the lesson material at a level set by themselves for their own comfort. None of the lesson material is misheard due to the direct nature of the sound transmission heard by each student via his or her individual headset.

b) Privacy The headset/microphone provides students with a psychological privacy that promotes their speaking ability. It reduces the inhibitions felt in normal classroom situations and encourages the shy student to speak. The instructor can speak to a single or group of students in privacy without disturbing the rest of the class.

c) **Overcoming Shyness** The use of a language learning system encourages students to talk freely and lose their inhibitions when talking in front of their peers. Lab systems tend to make students more anonymous.

d) **Attention** As the language lab allows the student to listen to the program stimulus individually, each individual student's attention is focused on the program material being studied, ultimately increasing the attention span of the student and teaching the student to listen and analyse the content of the lesson.

e) **Individualisation** Labs provide the capability for dividing the class into several groups. These groups can be listening to different programs on varying subject matter and at different levels of interactivity.

f) **Developing Listening Skills** The language lab helps students develop good listening skills and aids the process of communication. Students hear the correct language process all the time through their headsets instead of embarrassing other students who may be pronouncing incorrectly.

g) **Self-Pacing** The students may work through the lesson materials as a pace suited to their ability. The lab is for them a personal tutor.

h) **Instant Speaker/Without Noise** The lab provides the students with a variety of student voices rather than just the voice of the teacher (who is often not a native speaker). All modern systems have a Model Voice feature allowing a native speaker to converse and be used as a model voice subject for the rest of the class.

i) Efficiency: The language lab makes most efficient use of time, improving the teacher/student time ratio and allowing the instructor to maximize the use of time in a given lesson. In a single teaching session, individual students can have more opportunity to speak than during an entire semester in an average class of 30 students.

j) Variety: The language lab provides variety from regular classroom situations. The teacher's role is changed and the students are more active for longer periods of time. The use of visual stimulus coupled with selective audio materials increases the attention span of the students.

k) Record/Comparing: The students have the ability to record their own voices along with the master stimulus. Each student can be working independently on different segments within the same program or be working with completely different program material.

l) Simplify Record Keeping: The instructor can easily generate records of attendance, grading and oral responses to true/false or multiple choice taped tests. An automated record keeping process can save much time.

m) Oral Testing: Oral test features allow instructors to test students with a question or stimulus and only record the student's answer. Instructors can then play back the recorded answers at a later time for grading, without having to listen to the questions.

e) Teacher Monitoring Since the teacher is not concentrating on producing the next question or drill, he/she can concentrate more on the student responses. The instructor has more time to produce examples and answer class activities due to the substantially, rather than manually, controlled instruction inherent features.

f) Role Playing Exercises Using the random pairing/random grouping feature that all advanced modern learning systems incorporate, instructors can generate a variety of exercises structured around role-playing. Students can be paired or grouped together in small meetings and hold conversational practice with each other. Due to the random selection of student partners and the students interest level is always high in anticipation of who their paired partner is likely to be. The instructor can also allow the students to listen in a simulation from the console allowing the students to practice with each other while responding to the master simulation.

g) Building Student Experience Students can build on their existing experience and gain further knowledge of computers while learning in the computer language lab. Practicing with systems, software and new applications enhances exportable skills. The more experience students have with computer technology, the more successful they will be in the "real world"

g) Internet Access The new generation of multimedia systems allows the students to be connected to the World Wide Web and to be able to access information on a global basis. This allows for maximum access to information worldwide.

The main objectives of the Language Laboratory are

1. To Equip The Students With Good Communication Skills.
2. To Emphasize The Need Of English In The Technical World.
3. To Prepare Them For Interviews And Future Job Environments.
4. To Train The Students In The Art Of Conversation And Discussion.
5. Pronounce better through emphasis on word accent.
6. Negotiate well with inter personal skills and intra personal skills for better placements.
7. Gather information and organize ideas relevantly and coherently.
8. Speak appropriately on any given topic.
9. Transfer information from non-verbal to verbal texts and vice versa.
10. Write project/research reports/ formal letters.
11. Make power point presentations and oral presentations.
12. Face interviews and skillfully manage through group discussions.

SUMMARY

The language laboratory is a very helpful tool for practicing and enhancing one's speech in any language. It provides a facility which allows the student to listen to model pronunciations, repeat and record the same, listen to their performance and compare with the model, and do self-assessment. Since the language laboratory gives every learner of any language freedom to learn at their own pace, it is flexible and does not necessarily require a teacher all the time. At the other time, it is possible for teachers to provide assistance individually and collectively. The language laboratory allows every participant his or her privacy to speak and listen.

DEPARTMENT / PROGRAM	CSE	YEAR / SEMESTER	III B.TECH I SEM

Please rate the course of the following attributes using 5 point scale shown

5	4	3	2	1
Excellent	Very good	Good	Satisfactory	Poor

Theory subject codes as per Syllabus →	LANGUAGE AND COMMUNICATION SKILLS
Attributes for feedback	
Whether the lectures were well prepared, Organized and course material is well structured?	4
Was the Blackboard writing / audio visual aids are clear and organized?	5
Were the lectures delivered with emphasis on fundamental concepts and with illustrative examples?	3
Whether the Teacher engages classes regularly & maintains the discipline.	4
Whether difficult topics were taught with adequate attention and ease?	4
Did the Faculty provide you new knowledge and has command over the subject?	5
Was the instructor enthusiastic about teaching?	3
Was the teacher able to deliver lectures with good communication skills?	4
Were you encouraged to ask Questions, to make lectures interactive and lively?	5
Did the course improve your understanding of concepts, principles in this field and motivated you to think and learn?	4
Whether the teacher was effective in preparing students for exams?	4
Were the unit / assignment tests challenging?	4
Was the evaluation fair and impartial? and did it help you to improve?	3
Did teacher give additional technical / non-technical inputs by referring to Internet/ additional books?	4
Whether teacher was always accessible to the students for counseling, guidance and solving queries off the classroom hours.	4
Total points received	64
% satisfaction level = ((Total points/ 75)X100)	85.33 %

VISION & MISSION

Vision:

To be a Centre for Excellence in value based quality Professional Education catering Research, Innovation and Entrepreneurial Attitude that transforms students into globally competent, worthy Professional engineers.

Mission:

- *To create a Student centric academic support with innovative pedagogy*
- *To augment the utilization of the state-of-the-art infrastructure for the overall development of the individuals.*
- *To encourage independent thinking and application-oriented collaborative research in areas of Tropical interest to contribute to the development of the region and the nation.*
- *To provide an effective teaching & learning environment for forming technical graduates with values, entrepreneurial attitude and globally employable skills.*
- *To encourage participation in Sports, Co-curricular and Extra-curricular activities leading to over-all personality development.*

ABOUT YOGA AND MEDITATION TRAINING PROGRAM:

INTRODUCTION:

Yoga is a mind and body practice with historical origins in ancient Indian philosophy. The word Yoga is derived from the Sanskrit word Yuj which means to join or unite. The union referred to is that of the individual self uniting with Cosmic Consciousness or the Universal Spirit. Yoga is believed to have evolved during the period of the 'Sat Yuga', also called the Golden age.

1. BACKGROUND: YOGA AND MEDITATION:

The institute has a Student Activity Center(SAC) which organizes multiple yoga and meditation events every year by inviting eminent personalities in the field of yoga and meditation. Students are encouraged to pursue their dreams and goals at the same time balance their hobbies by teaching them yoga and meditation which helps them increase their energy and inculcates discipline in a person. This is achieved through regular sessions on:

- Eight limbs of yoga
- Regular practice of sun salutations
- Health and well being
- Healthy diet
- Happiness, Anger & Stress Management

The Institute Provides To the Following-

- Students are guided in different yoga techniques that will help the increase their concentration, energy levels.
- Students are taught meditation to maintain equanimity in good and adverse conditions.
- The YAC team works tirelessly to create students learn life skills along with technical skills.
- The college seminar hall is used for such activities, so that students are well and comfortable during the sessions.
- The institute supports the students by inviting prominent teachers in the fields of yoga and meditation.

A REPORT ON

YOGA AND MEDITATION TRAINING PROGRAM

Date: 04.07.2019

EVENT: YOGA AND MEDITATION PROGRAM

VENUE: SEMINAR HALL

NO. OF STUDENTS ATTENDED: 532

During **21-06-2019 and 22-07-2020 "Yoga and Meditation Training Program"** has been conducted through online mode. This event was organized for all B.TECH and MBA students. Sessions were taken by **Dr.M.S. PADMA and Dr. K. Y RAMACHANDER RAO**. The sessions were very interesting and informative. Students learnt a lot about health and importance of yoga to handle day-to-day stress.

Principal /Dean

THE YOGA AND MEDITATION TRAINING PROGRAM HAS BEEN ADOPTED TO FULFILL THE FOLLOWING OBJECTIVES:

- To let people know the amazing and natural benefits of yoga
- To connect people to the nature by practicing yoga
- To make people get used to meditation through yoga
- To draw attention of people worldwide towards the holistic benefits of yoga
- To reduce the rate of health challenging diseases all over the world
- To bring communities much close together to spend a day for health from busy schedule
- To help people in their bad situations by getting relief from stress through yoga.
- To strengthen the global coordination among people through yoga
- To make people aware of physical and mental diseases and its solutions through practicing yoga
- To link between protection of health and sustainable health development
- To get win over all the health challenges through regular yoga practice
- To promote better mental and physical health of people through yoga practice.

WHAT IS YOGA & MEDITATION?

An exquisite methodology exists within the yoga tradition that is designed to reveal the interconnectedness of every living thing. This fundamental unity is referred to as advaita. Meditation is the actual experience of this union.

In the Yoga Sutras instructions are given on how to meditate and described what factors constitute a meditation practice. The second sutra in the first chapter states that yoga (or union) happens when the mind becomes quiet. This mental stillness is created by bringing the body, mind, and senses into balance which, in turn, relaxes the nervous system. YOGA goes on to explain that meditation begins when we discover that our never-ending quest to possess things and our continual craving for pleasure and security can never be satisfied. When we finally realize this, our external quest turns inward, and we have shifted into the realm of meditation.

Different Ways to Meditate

1. The Use of Sound
2. The Use of Imagery
3. Gazing
4. Breathing
5. Physical Sensations

ADVANTAGES OF YOGA:

Yoga improves flexibility, builds muscle strength, betters bone health, increases blood flow and maintains nervous system, increases enthusiasm and self-confidence by transforming thoughts. Yoga is a simple solution for physical fitness and mental peace.

CONCLUSION

The purpose of Yoga is to create harmony in the physical, vital, mental, psychological and spiritual aspects of the human being. I have described the Technique of relaxation in different postures viz., standing, lying and sitting postures which brings in this harmony. Yoga is not mere practice for an hour or two in a day but it is the most scientific way of living, all the twenty-four hours of the day. By regular practice, by using your presence of mind, skill and wisdom, enjoy happiness and peace, whatever be the circumstances and conditions in which you are placed.
